

CORDDIT
FRONT-END DEVELOPER CONTRACT
FORTUNE NWANCHOKOR

As a tech industry professional who builds the front portion of websites or apps that customers, guests, or clients use on a daily basis, your responsibilities will include:

- Using markup languages to create user-friendly web pages
- Designing and improving the site
- Optimizing applications for maximum speed.

JOB BRIEF

We are looking for a qualified Front-end developer to join our IT team. You will be responsible for building the 'client-side' of our web applications. You should be able to translate our company and customer needs into functional and appealing interactive applications.

If you're interested in creating a user-friendly environment by writing code and moving forward in your career, then this job is for you. We expect you to be a tech-savvy professional, who is curious about new digital technologies and aspires to combine usability with visual design.

Ultimately, you should be able to create a functional and attractive digital environment for our company, ensuring great user experience.

RESPONSIBILITIES

- Use markup languages like HTML to create user-friendly web pages
- Maintain and improve website
- Optimize applications for maximum speed
- Design mobile-based features
- Collaborate with back-end developers and web designers to improve usability
- Get feedback from, and build solutions for, users and customers
- Write functional requirement documents and guides
- Create quality mockups and prototypes
- Help back-end developers with coding and troubleshooting
- Ensure high quality graphic standards and brand consistency
- Stay up-to-date on emerging technologies

The above stated responsibilities are to be carried out by the front-end developer (Fortune Nwanchokor) at an agreed salary of N100,000 monthly as soon as the company gets funded.

Resumption date: Monday 8th May 2023
